

Continuity of Care Experience

My name is Charlotte McMichael and I am a first year Bachelor of Midwifery student, studying at ACU. Part of my experience includes following 10 birthing people through their pregnancy, birth and post partum.

This experience further develops our skillset as midwives, whilst providing the birthing people with the continuity throughout their pregnancy, birth and post-partum.

The minimum requirement of support is:

4 Antenatal appointments

2 Post-natal appointments

I can attend any additional appointments at your discretion, as well as your labour and birth, if you are comfortable

I am located in the inner Western suburbs of Melbourne, but I am happy to travel.

If you are interested, please reach out to me via phone, text or email and we can organise a time to catch up and discuss this opportunity further.

As a mum to a beautiful daughter born in 2023, through the assistance of private midwives, I am passionate about supporting birthing parents and families through their pregnancy, birth and post partum.
